Sep 2022 – 2023 | 2022

### PROJECTS

#### Artwise Creative

Digital agency website

- Built a **modern, responsive** website for a client in the digital agency industry
- Utilized **Next.js**, **Tailwind CSS** and **Sass** to create a fast and visually appealing user experience
- Implemented features such as a portfolio showcase and **contact form**
- Ensured **cross-browser** compatibility and **accessibility** standards were met

#### Cozy Shop

E-commerce Website for a Fictional Clothing Brand

- Built using **Typescript**, **React**, and **Sass**
- Designed a **modern, responsive** user interface that highlights the brand's products and values
- Implemented a **cart feature** that allows users to add items to their cart and checkout securely
- Created a **search** and **filter** functionality for products, making it easy for users to find what they're looking for
- Ensured the website is optimized for **performance** and meets **accessibility** standards

#### Bluevies

Movie Search Web App

- Developed using **React** and **Sass**
- Integrated the **TMDB API** to provide users with up-to-date movie information
- Implemented email and Gmail **user authentication** to ensure secure access to the app
- Utilized the **Cloud Firestore** to save users' favorite movies in the database
- Created a **search** with **suggestions** functionality to help users find movies
- Demonstrated ability to work with **APIs**, **databases**, and **authentication systems**
